Part Number	999Q8HX111	999Q8HX222
*One-Year Service / Renewable.		

Electrical – The Nissan Fleet Tracker System installed in your vehicle relies on the battery of your vehicle and will not operate if the battery is disconnected or discharged. This does not prevent an assistant from providing you some of the services for which you are entitled, but we may rely on your vehal information regarding the location of your vehicle.

Cellular Communication Limitations – While you are in your vehicle, you are relying on cellular technology for communications with the Guidepoint Response Center. Your cell phone provider's coverage may limit your ability to communicate with the Guidepoint Response Center. If you request Guidepoint Response Center assistance outside your cellular communication service area or if your cellular provider's system is busy due to reaching maximum call capacity, the Guidepoint Response Center Personnel may not be able to assist you.

GPS Positioning Capabilities and Limitations – Vehicle location is available by receiving and interpreting signals transmitted by satellites. Your Nissan Fleet Tracker System is designed to receive those satellite transmissions every second and store data in the unit for retrieval, via our wireless network, in real-time. When signals experience obstruction, real-time location capabilities can be impaired or completely lost. Obstructions can occur when your vehicle is driven into areas with tall buildings, tunnels, parking garages or underpasses. In addition, trees and other objects can also affect GPS location capabilities. If we are unable to retrieve real-time location data, we may be able to retrieve recent historic data from the unit and/or we may depend on you to provide verbal information about your location in order to provide services.

Introducing Nissan Fleet Tracker

An Affordable Fleet Tracker Solution For NV Owners.

Nissan Fleet Tracker offers an affordable solution for Nissan NV owners that want to improve productivity, keep track of their vehicles, reduce costs and ensure the safety of their employees. Designed exclusively for the Nissan NV, the Nissan Fleet Tracker gives you the potential to achieve all this:

Improved Productivity

- Reduce unnecessary trips and unproductive stops.
- Reach job sites more quickly and efficiently.

Improved Asset Protection

- Protect company vehicles and equipment.
- Receive alarm notifications.

Reduced Costs

- Reduce fuel consumption.
- Receive Maintenance Reporting.

Increased Profit

- Complete more jobs every day.
- Use reporting tools to improve billing accuracy.

Improved Employee Safety

- Monitor vehicle speeds.
- 24/7/365 live emergency assistance.

Managing an entire fleet of vehicles has never been easier. That's because the Nissan Fleet Tracker uses GPS Technology powered by Guidepoint Systems, a leader in GPS tracking solutions. Thanks to Fleet Tracker's easy-to-use web-based tracking system, fleet owners and managers can get real-time information and up-tothe-minute history reports about any covered fleet vehicle through an intuitive online dashboard.

The Nissan Fleet Tracker provides you with everything you need to manage your fleet at peak efficiency. Locate a covered vehicle online and see its exact location on the map. Get its heading and current speed, all with a click of the mouse. View reports detailing all stops a vehicle has made along its route. Plus, get instant, automatic alerts sent via email whenever a vehicle arrives or departs at a preset destination.

With Nissan Fleet Tracker, you'll gain unprecedented insight into the activities of your entire fleet, making it easier than ever to manage employee schedules, review employee performance and maintain your vehicles.

- ▶ Keep track of your employees online. Find out the location of a fleet vehicle, its travel speed and its heading.
- for maximum productivity

NISSAN Fleet Tracker...the Ideal Tracking Solution For Your Entire Fleet.

Whether your fleet consists of two vehicles or two hundred, the Nissan Fleet Tracker powered by Guidepoint makes it easier and more affordable than ever to keep track of your fleet. The comprehensive web-based interface lets you access live, GPS location data for every covered vehicle in your fleet, so you can operate your business with extraordinary efficiency.

Fine-tune your employees job schedules

Keep an ongoing record of vehicle activity, ideal for staying up-to-date with your vehicle's maintenance and minimizing your maintenance costs.

Point. Click. Track 'em!

The Nissan Fleet Tracker features a remarkably simple web-based user interface that gives you key information you want to know about your fleet. From real-time map views for each vehicle, to comprehensive event tracking and maintenance reporting, managing your entire fleet has never been easier.

Get instant, real-time information about your fleet from any computer or mobile device.

Home

The Fleet Tracker Home Screen is a dash board that provides a high-level summary about your entire fleet. Daily metrics and recent events give you up-to-date statistics abou your fleet, while graph views provide details about total hours & distance driven. hours stopped, and so much more.

Map View

The Fleet Tracker provides a live turn-by-turn **Map View** showing the current location and travel direction for all your covered vehicles. The Map View lets you identify fleet vehicles in a given vicinity, making it perfect for redirecting a vehicle to a high-priority job.

Maintenance

With the Fleet Tracker's Maintenance feature, you can make sure your vehicle stay in top shape at all times That's because the software automatically monitors eac vehicle's maintenance need based on its use. You car easily set maintenance intervals for all major fluids and components and view a color-coded status repor that lets you know which vehicles require service.

Need in-depth information about a particular vehicle or

Reports

driver in your fleet? Fleet Tracker's **Reports** feature lets you easily create custom ized reports on everything from travel speed and stop made, to hours driven, hours worked and more, making it easy to track employee performance and manage payroll

Status

The **Status** page gives you instant details on the whereabouts of your vehicles. View their current location, see their current mileage, travel speed and more.
